Please choose this if you would like to be on the bee swarm collection database
We are in the process of making out the swarm collectors list for the upcoming year.

Collecting swarms can be lots of fun and a very important service to the community and the bees. People's perception of a swarm of bees is one of fear and panic.

As beekeepers we must attempt to prevent our bees from swarming, but if they do we must collect them as soon as possible. Catching a swarm is not difficult as the bees are not in a defensive mood and as long as you get the queen in the collection box, the rest of the bees will soon join her.

If you want to collect swarms this year, please choose this option.

Once we have your details we will pass these to the club volunteers who will receive calls and assign swarms to members
